

# thejuliadream

The Julia Dream acknowledges the past and embraces the present in their combination of retro and modern styles. The result is a penetrating new sound marked by bass-driven grooves and lush guitar textures. Underscored by captivating vocal melodies, the band produces an atmospheric landscape of words and music. With songs flowing easily from energetic and upbeat, to dark and transient, listeners and critics alike find this dynamic band hard to resist.

Band members Vernon Love (lead vocals), Matt Spatial (bass guitar, backing vocals), Michael Allen (drums), and Sacha Alexander (guitar) come together on stage to present a must-see live performance, bringing the band's subtle blend of emotion-filled melodies, ambient guitar layers, and energetic rhythms to life.

Some of the band's notable achievements include:

- Selected as promoter's choice to share the stage with national acts Filter, Augustana, Civil Twilight, Your Vegas, The Awakening, and The Damnells.
- "Above From Beneath" (EP) selected by retail-giant BEST BUY for regional distribution.
- "Clean Today" (song) selected by Warren Miller Entertainment for inclusion on nationally televised cable series, "Epic Conditions" (TWC).
- Voted "Band of the Week" by Belgian Indie Radio, Frequence Ardennes.
- Multiple features on Comcast Cable's "Bands On Demand" series and Stone Cold TV.
- Selected headliner on the 99X stage at the Atlanta Dogwood Festival.
